

EIPN
Early Intervention Provider Network

You can go to www.utahbabywatch.org and double click on “Agency Information” and click on “Early Intervention Provider Network” at the end of the Miscellaneous section at the bottom of the right hand column. The handouts and audio of all the conference calls will be there a week or two after the call.

This is an opportunity to network across the state with other early intervention providers. You are invited to call a toll free number and listen to a 30-40 minute presentation on the subject. You can also ask questions if you would like to do so.

If you are able to attend the call for your discipline, you can network with others across the state. However, if you have an interest in a specific topic presented for another discipline; you are invited to call in and participate if you wish.

Please email Vanya Mabey at vmabey@utah.gov with any questions.
