

18 Q Deletion
49 XXXXY Syndrome
Acardi Syndrome
Albinism
All unbalanced structural chromosome syndrome
Amyoplasia Congenita
Angelman Syndrome
Aniridia
Anophthalmia
Anoxic Brain Injury
Apert Syndrome
Arthrogryposis
Autistic Spectrum Disorders
Bardet-Biedl Syndrome
Brachial Plexopathy
Cerebral Palsy
CHARGE Syndrome
Chromosome 9 Deletion
Cockayne Syndrome
Congenital Bilateral Perisylvian
Congenital Brain Malformation
Congenital Infection, Cytomegalovirus Congenital
Infection, Herpes
Congenital Infection, HIV
Congenital Infection, Rubella
Congenital Infection, Syphilis
Congenital Infection, Toxoplasmosis
Cornelia de Lange Syndrome
Cortical Visual Impairment
Cri-du-chat
Deafblind Delayed
Visual Development/Maturation/Impairment
Deletion 2p21
DiGeorge Syndrome or Velo-Cardio-Facial Down
Syndrome (Trisomy 21)
Encephalocele
Failure to Thrive
Familial Exudative Vitreoretinopathy (FEVR) Fetal
Alcohol Syndrome
Fetal Hydantoin Syndrome
Fetal Valproate Syndrome
FG Syndrome
Fragile X Syndrome
Goldenhar Syndrome
Hearing Loss
Hunter Syndrome
Hurler-Scheie Syndrome
Hypoxic Ischemic Encephalopathy (HIE) Infantile
Gaucher Disease
Inflicted Neurotrauma
Jacobsen Syndrome
Kleefstra Syndrome
Klinefelter Syndrome
Kugelburg-Wehlander Syndrome
Leber's Congenital Amaurosis
Lesch-Nyhan Syndrome
Lowe Syndrome
Maple Syrup Urine Disease
Marshall-Smith Syndrome
Menkes Syndrome
Methylmalonic acidemia
Microphthalmia Moebius Sequence
Muscular Dystrophy, Becker Type
Muscular Dystrophy, Duchenne Type
Myopathies Neurofibromatosis Type 1
NICU Grad., Difficulty pacing/coordinating suck-swallow-breathe
NICU Grad., Fluctuating tone
NICU Grad., Inconsolability
NICU Grad., Long, difficult time to learn to eat
NICU Grad., Neurologically based significant irritability
NICU Grad., NG, NJ, or G tube feedings required either full or partial to
maintain adequate nutrition
NICU Grad., Severe sleep disorder
NICU Grad., Significant tremors when at rest
NICU Grad., Unable to come to a quiet-alert state
NICU Grad., Unable to take 100% nutrition by mouth
NICU Grad., Unusually high tone
NICU Grad., Unusually low tone
Niemann-Pick Disease
Optic Atrophy
Optic Nerve Hypoplasia
Osteogenesis imperfecta
Pentasomy X
Persistent Hyperplastic Primary Vitreous (PHPV)
Pervasive Developmental Delay
Phthisis Bulbi
Prader-Willi Syndrome
Pierre-Robin Sequence
Reduction Deformity
Retinal Detachment
Retinopathy of Prematurity (ROP) Grades 4,5
Rubenstein-Taybi Syndrome
Sanfilippo Syndrome
Schinzel-Giedion Syndrome
Semilobar holoprosencephaly
Septo Optic Dysplasia
Sly Syndrome
Spina Bifida
Spinal Cord Injury with Cord Involvement
Spinal Muscular Atrophy (SMA)
Sturge-Weber
Tay-Sachs Disease
Tethered Cord Syndrome (TCS)
Treacher Collins
Trisomy 13
Trisomy 18
Tuberous Sclerosis
Untreated Hypothyroidism
Untreated PKU
VACTERL Association
Velo-cardio-facial or DiGeorge Syndrome
Ventilator Dependent
Walker-Warburg Syndrome
Waardenburg Syndrome, Types I and II
Werdnig-Hoffman Syndrome
Williams Syndrome
Wolf-Hirschhorn Syndrome
